

Nano Cloaking Film

1. Product Introduction

Cloaking Film is a cutting-edge privacy solution designed for open-plan offices and public spaces. This advanced architectural film for glass walls acts as a privacy filter, blocking external viewers from seeing your LED screen, which appears black from the outside. Inside, everyone can work freely with peace of mind, knowing that sensitive data is safe and secure. Ideal for conference rooms, meeting rooms, and team studios.

2. Working Principle

3. Benefits

Privacy Control

Cloaking film provides privacy by making screens invisible.

Anti-Glare and Transparency

The film usually has anti-glare properties, allowing it to blend seamlessly with glass partitions without affecting visibility for the primary view.

Maintain Open-Space Feel

Transparent and opaque at the same time, it balances openness and privacy in the workplace.

Nano Cloaking Film

4. Product Specifics

Name	Cloaking Film
SKU	NCF-120 NCF-138
Thickness	135um
Color	Light Grey
Adhesive	Acrylic PSA
Material	Polarized Film
Top Coating	Anti Scratch Coat
VL Transmission	42%
UV – Reduction	99%
Visible Light Reflected (Int)	8%
Visible Light Reflected (ext)	9%
SR Hardness	2H
Shading Coefficient	71%
Solar Heat Gain Coefficient	62%
Total Solar Energy Reduction	32%
Size Roll (W*L)	1.2/1.38 x 50m

5. Warranty

The product warranty is valid only if the product is installed correctly and maintained in accordance with the provided instructions. The warranty covers the product for a period of five (5) years from the date of installation, provided that the product is properly maintained according to the specified guidelines.

6. Installation
